

PANEL 1350

Webberville, MI

A great new digital billboard location in Webberville's commercial business district. There is good traffic count, as the billboard sits very close to primary I-96 on and off ramps. This billboard is located immediately between a heavily trafficked convenience store-truck stop and a McDonald's restaurant. Furthermore, the billboard is on state route M-52, leading to multiple bedroom communities. Residents of Webberville, Williamston, Perry, Haslett and Stockbridge drive by this sign daily on their way to and from work in the Southeast Michigan region and the Greater Lansing area. The City of Fowlerville is just six miles to the east on I-96, while Howell is a 15 minute drive and the booming Brighton area is a mere 25 minutes away. This billboard will afford great exposure to businesses in all of the above villages, cities, and their surrounding areas.
